## david house community centre

### A Redevelopment Project

DAVID HOUSE - YARRAVILLE

*Not just a place; a spirit and sense of community*

## our history

Over 50 years ago a group of parents of children with a disability, established David House.

Fifty years ago society was a different place. People with a disability had limited choice, families had even less. For the families involved in starting what has now known as 'David House' at the Yarraville site it was the beginning of a long but ultimately successful journey.

Today David House supports more than 300 people with a disability and also their families to participate in the community with increased opportunities and choices.

## our vision

An innovative community and learning hub, supporting people with a disability and their families and connecting *all* people in the community. Spaces include woodworking, community kitchen, community garden, theatre, IT multi media and arts room, offices and open plan areas.

## our target

Our fundraising target is \$5 million. Redevelopment will occur over four stages:

Stage 1. Design development for full site development

Stage 2. Construction of multi purpose activities building with Williamstown Road Frontage

Stage 3. Construction of Hall
